

Classic Media Player

IDP - PL002

The Intevi Classic Media Player is the perfect solution to display all of your digital signage needs.

The Intevi Classic Player features a powerful i3 processor and 4GB of RAM.

It's designed to perform smoothly under the heavy strain of running multiple live objects on a HD screen or large format display.

These live data feeds can consist of Live Twitter, Local Weather and RSS Feeds for Local News, Top Stories or Local Text Input. Its embedded design uses no moving parts, providing excellent reliability and very low power consumption.

Classic Media Player

IDP - PL002

Unique Selling Points

- Solid State
- Linux Operating System
- Custom hardware specifications available.
- Commercial 24/7 device.
- Integration with IDP Insight CMS
